Prayer Force Arise!

Our goal is always to have a minimum of 200 committed Prayer Partners. Right now we have 198! However, we are extremely greedy when it comes to prayer—we want all we can get! If you'd like to pray for us then you can go to our website or just send us a note! We'd love for you to join this team!

Stop 'n Go, Stop 'n Go

We feel like we're in rush-hour traffic! When we first came to the States, God had us stop and wait for His direction. Then it was time to go—to seminary and then to churches raising support. Now we've stopped again to wait for my work permit. Then off we'll go, this time to PNG!

Like cars at a traffic light in Cairo, we're poised to jump as soon as we get the green light!

The question is, how long will this stop last? The permit is being applied for right now. It could be granted and sent by the middle of this month. Or, not! The last one they did took considerably longer!

So now we wait on the Lord because only He can accelerate the process. God's timing may be fast—it often is. Or, in our eyes, it may be slow. But no matter what, it's always perfect!

A Slight Miscalculation

Here's a math quiz: what's \$3,000 minus \$1,800, minus \$2,500? The answer: not enough!! When we first tried to determine how much we needed to raise for departure expenses we figured on about \$1,000 for home schooling materials and \$2,000 for dental visits and supplies. A total of \$3,000. Well, home schooling supplies ended up costing \$1,800 and dental visits to

fix us up for the next few years ran \$2,500! Then there is still the little matter of supplies. With the big expenses out of the way we are hoping that an additional \$2,000 will get us ready to go. If you'd like to give you can go to our website or simply make a check out to "Pioneers" and send it to the mission address (⇒⇒⇒⇒). Thank you so much for your prayers and your gifts!

Prayer Briefs:

Savings via Email

So far 159 people have signed up to get their letters via email only, and 95 are Prayer Partners! That's a total savings of about \$500 per year! Pray that many more will sign up for this. (You can by simply sending me your email address!)

School Confusion

Daniel is now in high school and since the school in PNG is fully accredited we have to consider credits. Pray that God would work out the how's and when's of the switch.

Pricy Appliances

In PNG appliances cost almost triple what they do here and we'll need to buy a small fridge, stove and manual washing machine. The cost: \$2,400. Pray that God will supply this need!

U.S. Address:

Kent & Michelle Mundhenk
1510 Sunflower Lane
Granbury, TX 76048
