Volume XII, No. 3

Praying the words of Jesus

We know that God's timing is perfect, but we also know how badly we want to get back to PNG. Our prayer remains "Lord get us there in Your time." However, in addition to that we are now praying, "Father, if there be any way...." But we also include, "Nevertheless, not our will but yours be done."

Endurance...

Before we ever left for PNG, we spent three long years raising support. Then, during our first term, it took four years to build both a house and relationships, which would finally bear fruit during our second term. Our third term was arduous, especially for Michelle, as she endured undiagnosed fibromyalgia. Now we have been in America for four and a half laborious years and we're not done yet!

When the visa paperwork was submitted to the Immigration Department in PNG it included everything necessary for five visas. Just a few weeks ago we finally received approval... but for only three visas. The Immigration Department misplaced the other two applications! They are now working on correcting their mistake. We asked how long we should expect to wait and we were told, "...not long."

God started out teaching us endurance and He's never let us forget what we've learned. However, He has refined and extended it!

Let us run with endurance the race that is set before us...

Am I Ready For This?

The 29th of this month the final term of the year begins at Christian Leaders' Training College in PNG. I'll be teaching two classes and I've already been studying. I thought I was doing well—getting a head start on my preparations—until I got the course descriptions. I knew that my teaching would need to be at a more

scholarly level than what it was in the Ningerum tribe, but I didn't know how big of a step that was going to be!

Fortunately I have history on my side. When I taught at the Bible school in Ok Ao, it was God who worked through me to get the job done. He is faithful so I know He will do it again... if I let Him!

Prayer Briefs:

Email Advantage

Continue to pray that people would sign up to get this letter via email. It saves us hundreds of dollars a year!

Almost there..

Right now we are just \$68 a month shy of full support. Pray that God would bring this in before we leave. It's hard to gather support half a world away!

Back to School

For now, the kids are back in school. This may work out to Daniel's advantage as he will now be considered a transfer student when we get to PNG. We are praising God for at least one bright spot in all this.
