

Mundhenk's Ministry Messenger

Behold, I send My Messenger, And he will prepare the way before Me.

Malachi 3:1

September, 2004

Volume VIII, No. 3

Ups and Downs

Michelle was doing well on her medicines but we wanted to lessen some unpleasant side effects. The Doctor changed just one of her six medicines and the whole 'cocktail' collapsed. She's now back on the original mix and doing better. We are praying hard that God will lessen the undesirable side effects and give Michelle long-term stability.

We're Moving!

When Michelle and I began raising support full-time back in 1991 we lived with her parents. For the last ten years whenever we've been in the U.S. on home assignment we've stayed with my parents. Now we get a place of our own!

Two months ago we had no plans to move but God had a different idea. He clearly directed us to look for a different place to live and just as clearly directed us to the neighborhood and the house he wanted us

to be in. We're not moving far, just across town, but God has provided a nice little house for us.

But, the fun part is that almost everything we own is on the other side of the globe! It's almost like being newlyweds again... without the wedding gifts! But God is our supply! Through His people He has given us a house full of furniture along with basic items like towels, dishes and silverware. He's directed, we've followed and He is taking care of the "details!"

Location... this house is less than 1/2 mile from both schools the kids attend!

Back to School

God has made it clear that this unscheduled furlough is going to be a bit longer than our normal 10-12 months. A major part is Michelle's health but we also need a lot of rest. God has kept us going strong for the last 13 years with little in the way of a break so He's

giving us one now.

It also gives me a chance to do something I've wanted to do for a long time: go back to school. With additional Bible training I can be an even better tool in His hands and be even better prepared for what He has in store for us.

Prayer Briefs:

Surprising Recovery!

Michelle's father was in the hospital for two weeks, in a nursing home for two weeks and now he's back home! Pray that he will continue to gain strength.

Culture Shock: Grade School Style

It's not easy to be the "new kid" but to be that *and* from a different way of life....Please pray for the kids as they adjust to life over here.

We Got Gold Bricks!

During their VBS one of our supporting churches ran a competition between the boys and girls to see which group could buy the most gold bricks valued at \$1 each. The money was to help us during our time of need. The girls won but all together 1,489.12 bricks
