

# Mundhenk's Ministry Messenger

Behold, I send My Messenger, And he will prepare the way before Me.

Malachi 3:1

June, 2004

Volume VIII, No. 2

## Two Close Calls

Last month Michelle's father was backing his car onto the street when his heart chose to stop beating. But, after an abrupt halt against a fire hydrant, it started up again. Then a couple weeks later the top half of his heart decided to take another break. Again, it re-started. Part of our ministry here in the States is to help our families. God worked it out so that we could be with them to help during this time. That's better than just sitting in the jungle wondering!

## "Yep, She's Got It"

"Wow, you're doing so much better!" Those were the doctor's words when she last examined Michelle. When we first arrived back in the States, we thought we'd need to find a doctor who worked specifically with fibromyalgia patients. But after only five minutes of initial examination our current doctor floored us by saying, "Michelle, you definitely have fibromyalgia!" Turns out she is very adapt at treating this condition and gave us a good prognosis. She also said, "I want to get you as well as possible so we can get

you back home... to PNG."

We are now well on the way if God does in fact want us back there. (I say that because right now we are purposely open to wherever God may lead us, even if that means

Good medicines and a quality diet have been a big help for Michelle.

staying in the States. I know, that should always be the case.) There still may be x-rays or other procedures done to find or rule out contributing factors but the medicines Michelle is on are doing their job.

God is working, pray that He will continue to help us get Michelle back to where she needs to be.

## Deadline

Before we left PNG I talked to the pastors in the Ningerum tribe. I explained to them once again that if they did not use me then I felt God would move us. Together we agreed on an ultimatum: 10 qualified students by August 31st. If there were 10 Ningerum people who want to study

the Bible so they can serve God and His church then we believed He'd keep us in that tribe.

Please pray that everyone in the tribe will hear of this so they will know that they are the ones who have turned from God and that He did not turn from them.

## Prayer Briefs:

### VBS Season

About the time you get this I'll be doing a short missions part in the VBS here. Pray that I'll get everything ready and that the kids will be influenced by it.

### "A fatal exception OE has occurred at...."

My computer must be allergic to the States, it keeps crashing! Pray that I'll get this problem resolved.

### Kids in School

Over the summer we'll be making some hard choices regarding this. Pray that God would show us the right choices to make about the coming school year.
