

Mundhenk's Ministry Messenger

Behold, I send My Messenger, And he will prepare the way before Me.

Malachi 3:1

June, 2001

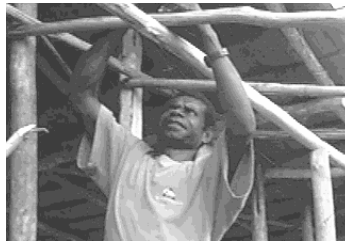

Volume VI, No. 2

“P rayer is how God gets His work done.” This has been our mantra for years and it is still as true today as ever. So far we have 158 people committed to pray for us till March 31st of 2002. Call us greedy but we want more! This will be one of our primary objectives while back in the States. If you want to join us then just send us a note at our U.S. address

The Beat Goes On

“What will last?” This is a question that as missionaries we must ask ourselves many times. When we first started the Bible School we thought that, yes, the results will last but not the school itself. God may be changing that.

The plans have grown to include the Principal (Tino t) teaching an adult literacy course, Beot teaching the first year courses and me teaching the second. These plans are still a few years from becoming a reality but the point is that I didn't make them!

Tino t is never idle. God has and continues to use him.

The church leaders here have insisted that the Bible school continue and even expand in our absence.

I am just finishing up a short set of courses that Beot can teach and the literacy materials are supposed to be on the way. Also, they are trying to get together to build the Bible school classroom and they want to start classes up again this month!

These are big plans for out here but with God's help they can happen. Please praise God that

The Commute is a Killer!

The packing and international travel may be over with for a while but now comes the refocusing of our energy on our work here. The first order of business is to get a car and computer but after that is the task of trying to fit all our meetings together so we

can get to them in one circuit. Our supporting churches go from Texas to northern Wisconsin to the eastern shore of Maryland. The return trip should take us through Orlando, FL where Pioneers headquarters is. Yikes! We could really use some

Prayer Briefs:

Wheels Needed:

Hopefully with a car attached. Last term God really did have a car ready for us and it was perfect. Please pray that He will again prepare the car He wants us to have and lead us to it.

A Computer, too:

Maybe a new one won't crash so often, NOT! I absolutely could not have done all I did this term without one but this computer is showing its age.

Rest

“What? I've got too much to do!” That's why we need your prayers. We are scheduling in times to rest but it's hard.
